

MINI PROJECT

MODERN WEB DEVELOPMENT WORKSHOP 1 (CSE2191)

Topic: “*My First Portfolio Website*”

Objective

Throughout this course, Apply the concepts learned to build a personal portfolio website. This project is an opportunity to demonstrate the understanding of HTML, CSS, and basic web design principles. By the end of the project, create a simple, responsive, and stylish portfolio that showcases your skills, projects, and contact information.

Project Overview

Create a multipage website that includes the following sections:

1. *Home*
2. *About Me*
3. *Portfolio*
4. *Contact*

Project Requirements:

1. Home Page

Content

- A. A welcoming headline and a short introduction.
- B. Navigation menu linking to the other sections (About Me, Portfolio, Contact).
- C. A background image or a hero section with an image that represents the student (using CSS for styling).

Key Skills

- A. HTML structure (headings, paragraphs, links).
- B. CSS for layout (Flexbox or Grid for arranging elements).
- C. Image inclusion and styling.

2. About Me Page

Content

- A. A section with a brief biography or introduction.
- B. An ordered or unordered list of skills (e.g., programming languages, tools).
- C. A profile picture or avatar.

Key Skills

- A. Using HTML lists for organizing content.
- B. Image handling (adding and styling profile pictures).

C. Text formatting and styling with CSS (font styles, colors).

3. Portfolio Page

Content

- A.** A gallery or grid of projects the student has worked on.
- B.** Each project should include:
 - C.** A title.
 - D.** A short description.
 - E.** A link to view more details or the project itself.

Key Skills

- A.** Creating a table or grid layout to organize project items.
- B.** Links and anchor tags for navigation to project details.
- C.** CSS for styling the grid and making it responsive.

4. Contact Page

Content

- A.** A form where visitors can send messages or inquiries.
- B.** Form fields should include:
 - Name (text input)
 - Email (email input)
 - Subject (text input)
 - Message (textarea)
 - Submit button

Key Skills

- A.** Building and structuring forms using HTML.
- B.** CSS for form styling (input fields, buttons).
- C.** Basic form validation using HTML5 attributes.
